Re: AA 167-11316
First Administrative Amendment to
Part 70 167-9639-00116

Dear Mr. Brown:

Victory Environmental Services, Inc. was issued a permit on July 12, 1999 for a stationary municipal solid waste landfill. A letter requesting a language change for condition C.14, Emergency Reduction Plan, was received on September 02, 1999. Since there is no increase in potential to emit, pursuant to the provisions of 2-7-11 the permit is hereby administratively amended as follows (strike-out and bold have been used to show changes):

Victory Environmental Services, Inc. requested a language change with condition C.14, Emergency Reduction Plans. The underlying applicable requirement for Permit Condition C.14 is Rule 326 IAC 1-5-2. According to this rule, any source that has the potential to emit any pollutant above the 100 tons per year limit shall submit an Emergency Reduction Plan. Victory Environmental Services, Inc. does not have the potential to emit at or above the de minimis level, therefore, the clarification was requested.

C.14 Emergency Reduction Plans [326 IAC 1-5-2] [326 IAC 1-5-3]

Pursuant to 326 IAC 1-5-2 (Emergency Reduction Plans; Submission):

(a) **Where the facility has the potential to emit 100 tons per year or more of any criteria pollutant, volatile organic compound (VOC) or oxides of Nitrogen (NO_x) as a surrogate for ozone**, the permittee shall prepare written emergency reduction plans (ERPs) consistent with safe operating procedures.

(b) These ERPs shall be submitted for approval to:

Indiana Department of Environmental Management
Compliance Branch, Office of Air Management
100 North Senate Avenue, P.O. Box 6015
Indianapolis, Indiana 46206-6015

and

Vigo County Air Pollution Control
201 Cherry Street
Terre Haute, Indiana 47807

within ninety (90) days after the date of issuance of this permit **or within ninety (90) days after any change that would increase the potential to emit for a pollutant above the de minimis level.**

All other conditions of the permit shall remain unchanged and in effect. Please attach a copy of this amendment and the following revised permit pages to the front of the original permit.

This decision is subject to the Indiana Administrative Orders and Procedures Act - IC 4-21.5-3-5. If you have any questions on this matter, please contact Mr. Darren Woodward, at (812) 462-3433 extension 15.

Sincerely,

George M. Needham
Director
Vigo County Air Pollution Control

PART 70 OPERATING PERMIT

OFFICE OF AIR MANAGEMENT
and
VIGO COUNTY AIR POLLUTION CONTROL

Victory Environmental Services, Inc.
12247 South Mill Street
Terre Haute, Indiana 47802

(herein known as the Permittee) is hereby authorized to operate subject to the conditions contained herein, the source described in Section A (Source Summary) of this permit.

This permit is issued in accordance with 326 IAC 2 and 40 CFR Part 70 Appendix A and contains the conditions and provisions specified in 326 IAC 2-7 as required by 42 U.S.C. 7401, et. seq. (Clean Air Act as amended by the 1990 Clean Air Act Amendments), 40 CFR Part 70.6, IC 13-15 and IC 13-17.

Operation Permit No.: T167-9639-00116	
Issued by: Janet G. McCabe, Assistant Commissioner Office of Air Management	Issuance Date: July 12, 1999
First Administrative Amendment T167-11316	Pages Affected: 23
Issued by: George M. Needham, Director Vigo County Air Pollution Control	Issuance Date:

in writing, prior to the end of the initial ninety (90) day compliance schedule, with full justification of the reasons for the inability to meet this date.

The notification which shall be submitted by the Permittee **does** require the certification by the "responsible official" as defined by 326 IAC 2-7-1(34).

C.12 Maintenance of Monitoring Equipment [326 IAC 2-7-5(3)(A)(iii)]

- (a) In the event that a breakdown of the monitoring equipment occurs, a record shall be made of the times and reasons of the breakdown and efforts made to correct the problem. To the extent practicable, supplemental or intermittent monitoring of the parameter should be implemented at intervals no less frequent than required in Section D of this permit until such time as the monitoring equipment is back in operation. In the case of continuous monitoring, supplemental or intermittent monitoring of the parameter should be implemented at intervals no less than one (1) hour until such time as the continuous monitor is back in operation.
- (b) The Permittee shall install, calibrate, quality assure, maintain, and operate all necessary monitors and related equipment. In addition, prompt corrective action shall be initiated whenever indicated.

C.13 Monitoring Methods [326 IAC 3]

Any monitoring or testing performed to meet the applicable requirements of this permit shall be performed according to the provisions of 326 IAC 3, 40 CFR 60, Appendix A, or other approved methods as specified in this permit.

Corrective Actions and Response Steps [326 IAC 2-7-5] [326 IAC 2-7-6]

C.14 Emergency Reduction Plans [326 IAC 1-5-2] [326 IAC 1-5-3]

Pursuant to 326 IAC 1-5-2 (Emergency Reduction Plans; Submission):

- (a) Where the facility has the potential to emit 100 tons per year or more of any criteria pollutant, volatile organic compound (VOC) or oxides of Nitrogen (NO_x) as a surrogate for ozone, the permittee shall prepare written emergency reduction plans (ERPs) consistent with safe operating procedures.

- (b) These ERPs shall be submitted for approval to:

Indiana Department of Environmental Management
Compliance Branch, Office of Air Management
100 North Senate Avenue, P.O. Box 6015
Indianapolis, Indiana 46206-6015

and

Vigo County Air Pollution Control
201 Cherry Street
Terre Haute, Indiana 47807

within ninety (90) days after the date of issuance of this permit or within ninety (90) days after any change that would increase the potential to emit for a pollutant above the de minimis level.
